

A modern, multi-story glass building with a prominent, wide staircase leading up to its entrance. The building's facade is composed of large glass panels, reflecting the sky and clouds. The architecture is contemporary, with sharp angles and a mix of glass and concrete. The sky is a vibrant blue with scattered white clouds, and the sun is visible on the right side, creating a lens flare effect. The overall scene is bright and clear, suggesting a sunny day.

YOU WANT
STRONG BRANDS.

WE HAVE WHAT IT TAKES.

HAHN+KOLB
GROUP

LET'S WORK TOGETHER.

BRAND PHILOSOPHY

The name HAHN+KOLB is synonymous with the highest level of quality and maximum performance, profitability and safety for your production. We therefore only sell high-quality products from well-known manufacturers. Our range is extremely diversified and we offer you the greatest possible supply security and individuality. Only the best is good enough for you.

LET'S WORK TOGETHER.

Our claim "LET'S WORK TOGETHER" is much more than just an advertising message. It is an expression of the fact that we at HAHN+KOLB want to experience a true partnership with you, our customer. We are the competent partner for competent customers. Only close collaboration based on equality provides the foundation for joint success. Our strong brands offer you the perfect complete range in order to work together on your success.

A photograph of a modern, multi-story glass building at night. The building's interior lights are on, and the glass reflects the surrounding environment. A large, dark blue banner is overlaid on the lower half of the image, containing the title and subtitle. The background shows a clear night sky and some architectural details of the building, including a wide staircase and a glass-enclosed entrance area.

THE BRANDS

ATORN | OWN BRANDS

EXCLUSIVE BRANDS | MANUFACTURERS' BRANDS

THE ARRAY OF BRANDS FROM HAHN+KOLB

Vast selection and always the best solution. Your advantages:

- Comprehensive range
- High level of availability
- Strict quality controls
- Highest quality standards
- 10-year guarantee
- Product innovations from within the company

OWN-BRAND PRODUCTS

OWN-BRAND PRODUCTS

ORION | HK | AUTOSTAT | MULTIFIX
HERMETIKUS | SUBITO

OUR OWN BRANDS FOR SPECIAL TASKS

Tough challenges require exceptional solutions. For special applications we develop precisely defined products that are manufactured by our partners. This range of own-brand products is exclusively available through HAHN+KOLB.

Whether it be ORION, HK, AUTOSTAT, MULTIFIX, HERMETIKUS or SUBITO: Each of our brands has made a name for itself due to its specially selected materials, high-quality workmanship and perfect handling – and not least the excellent price/performance ratio.

OWN-BRAND PRODUCTS

ORION®

Our comprehensive range

In the ORION brand product range you will find machining tools, clamping devices, measuring and testing equipment, hand tools and much, much more. Each one of the over 10,000 ORION products impresses with its functionality, safety and excellent price/performance ratio.

Specially selected materials and high-quality workmanship ensure optimum handling.

Your advantages:

- Excellent price/performance ratio
- Comprehensive product range
- Better value than manufacturer's brands
- High level of availability
- Fast delivery times

Our range of factory and warehouse equipment

In addition to high-quality workbenches and cabinets, the HK brand portfolio also includes work tables, products for storing tools, such as tool rack systems, and much, much more besides. HK stands for maximum functionality, flexibility, ergonomics and durability and also impresses with its contemporary design.

The optimal compatibility of the products with one another coupled with custom production based on your requirements enable you to design your workshop exactly as you wish.

Your advantages:

- High-quality products
- Comprehensive assembly and services
- Individual planning according to requirements
- Customer-specific solutions

AUTOSTAT

Our range of spring balancers and balancers

With our AUTOSTAT products, we offer you a comprehensive range of high-quality spring balancers and balancers.

This range enables safe, smooth-running work processes and reliably prevents premature fatigue. Certified with the GS mark for tested safety, our AUTOSTAT range impresses with its long service life, easy maintenance and high operating safety.

Your advantages:

- High-quality products
- Long service life
- Compliance with DIN 15112 and CE guidelines
- Comprehensive range of spring balancers and balancers
- Made in Germany

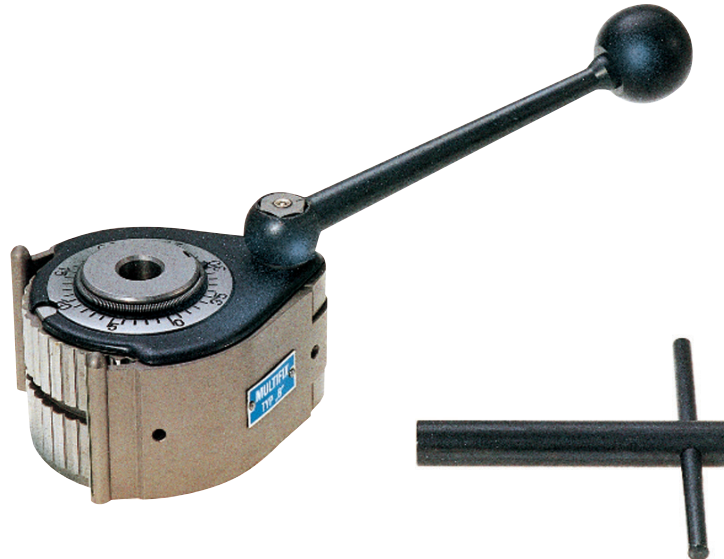

MULTIFIX

Our range of quick-change tool posts

The product range of our MULTIFIX brand includes quick-change tool posts for manual tool changing on conventional lathes and CNC lathes. The intelligent toothed connection of basic bodies and change holders enables 40 different holder positions. MULTIFIX has been offering high-quality products for efficient tool changing since 1953.

Your advantages:

- Over 60 years of experience
- Products made from high-quality steel
- Repeatable change accuracy
- Easy to use

HERMETIKUS

Our range of compressed air elements

The compressed air elements of the HERMETIKUS brand have been developed for equipping compressor systems and for connecting pipelines and compressed air tools. The HERMETIKUS blow guns are fitted with noise protection nozzles, which significantly reduce the noise level to well below the maximum permissible levels. You will be convinced by the quality of our own brands.

Your advantages:

- High-quality parts
- Effective noise protection
- Comprehensive product range

SUBITO

Our range of internal precision measuring instruments

Through automatic centring of the fixed and moving measuring pins, the SUBITO internal precision measuring instruments guarantee simple and precise measurement of blind holes, centring shoulders, bearing bores, internal grooves and recesses.

Your advantages:

- Optimum stability
- Maximum measuring accuracy
- Easy to use

OWN-BRAND SERVICES
